bartoli design

friendly  
and  
**COZY**

The idea that brought Jay to life is to have only a few iconic shapes - seat, back and headrest - to compose and create a family of contract chairs: friendly, comfortable and cozy as a nest, yet with personality. Jay is a system of upholstered contract armchairs for offices, cafeterias, restaurants and conference areas, as well as executive and visitor chairs.

Jay family contains 3 different heights. Jay 1 being the lowest back, Jay 2 higher back and Jay 3 with an additional headrest attachment. With it organic lines, Jay's curved back and rounded bottom gives it a great volume that creates an impressive look in open modern spaces. Various combinations make multipurpose applications available with the richness of Jay's height and base options.
