# R2

nurus design lab

colorful,  
lively and  
functional

R2 is named after the wise, lovable and function oriented R2-D2 of the legendary Star Wars. R2 offers a soft seat surface and comfort, and can be used with or without a writing pad. With different fabric and color options, R2 brings color, movement and life to all living spaces, from work areas to educational establishments, from homes to lounge areas. With its storage space placed underneath the sitting area, it can store books, magazine and personal items.
