The Altı armchair has been the design's starting point with its hexagon shape. "Altı" means "six" in Turkish and this is where the name comes from. The hexagon shape is ergonomically angled to provide a nice seating feeling. Its contours balance graceful curves with dramatic angles. By stretching the hexagon shape, two and three seats versions are created and completed the range.

Alti is a perfect choice for lounge areas, offices and hospitality spaces where colors and fun needed. For reclaiming a perfect pleasure, Alti is the result of an attentive search to arouse emotions of the user perceived by sight and touch.

The hexagonal form is the key element for this contemporary and casual but always elegant and distinguished armchair. It is undoubtedly one of the most special and innovative ranges on the market. Alti can be upholstered in all fabrics of the deberenn swatch cards specified by the customer.
