comfort
is the key

Inspired by the smooth contours of a Wok, Pana gently angles forward to create a comforting and encapsulating shape. Supported by a delicate wire frame finished in chrome or powder coated finish which blossoms upwards and outwards from the ground to emulate positivity and growth.

Comfort is a key in this project. A project should be iconic in its aesthetics, but also be a great chair where form and function be married together.

Pana is also available in soft version with crinkled soft upholstery that brings the design and comfort one step further. Pana is a compact and exceptionally practical chair that showcases great design and comfort. The chair's elegant form is captured in the seat, backrest and armrests in a single graceful movement.

It is ideally suited to informal reception, atrium, meeting, breakout spaces and suited to purist office environments where it brings a vitality to life by adding a dynamic form and colour.

Complimentary coffee tables enable Pana to be used in work-based contract applications, or more relaxed domestic and hotel environments. Pana has 2 faces; one on wire frame and one on the wooden base. Under the same sculptural shell two bases offer almost two different enjoyable designs.
